In the game, players take control of a number of units and attempt to conquer the world of Cahokia, a pre-Columbian Indian culture. The expansion adds new units, campaigns, music, and scenarios, and is followed by a sequel, Age of Empires II: The Age of Kings II. Contents Story The game's plot concerns Cahokia, an Indian tribe that is expanding its territory. The expansion's subtitle, "The Conquerors," refers to the players' ability to conquer the pre-Columbian Indian people, and their capacity to take control of their territory. The expansion starts off with an invasion of the Cahokian village of Tamarok. Gameplay One of the major features of Age of Empires II: The Conquerors is the "Play the Game" mechanic. The player is able to play a variety of new games that can be created with customizable content, and can be played alone or in multiplayer. The Play the Game feature is introduced in the following manner: "Have you seen that boy playing that game you designed? I have a feeling he would make a great general." The game itself is played with a mouse, but the players use a secondary controller that can be used to handle units and control the game mechanics. The Conquerors expansion features a number of new units, a more detailed trade system, new buildings, and a new resource mechanic, which are explained below. Expansion units In Conquerors, the player is able to control tribes that use unique units, such as the Flintlock, which can shoot flaming arrows. All of these new units are modeled after existing tribal warriors of the time. Age of Empires II: The Conquerors also introduces a handful of new units. The expanders include: Battle Axe - A new ranged unit that is as durable as it is powerful. Cannoneer - A unit that uses a ballista, but it is fired automatically when it is commanded to attack. It can be upgraded to use the siege weapon. Cavalry Archer - A crossbow-armed mounted archer that is as hard to hit as it is fast. It can be upgraded to use a shield. Cutlass - A new melee weapon that is intended to deal massive damage. Mage - A unit that is particularly effective at casting spells on buildings. It can be upgraded to have a second mage-fire attack. Warrior - 82157476af
